

Name: _____

Date: _____

Waterfowl Class

1. As a trained volunteer I can assist in capturing and transporting protected waterfowl.
T F
2. As a North Carolina licensed rehabber I can keep protected waterfowl for up to 48 hours. T F
3. Since there are so many Canada Goose in this area, they are not protected under the Migratory Bird Act. T F
4. When responding to a call on injured waterfowl I will sometimes need to determine if the bird needs to be captured or not. T F
5. Orphaned Canada Goslings can be kept outside in a dog crate until transport is arranged. T F
6. Ducklings and goslings rarely imprint on humans. T F
7. Orphaned ducklings and goslings can eat hard boiled egg yolk and pesticide free grass clippings if no other food is available. T F
8. Great Blue Herons and similar wading birds are safe to handle. T F
9. Always keep a record of where birds were captured so they can be returned after rehabilitation if appropriate. T F
10. Federally Licensed Waterfowl Rehabbers are abundant in our area. T F
